EXPERIENCE

Arch Technologies

February 2026 – April 2026

Data Science Intern

Pakistan, Islamabad

- Assisted in collecting, cleaning, and preprocessing large datasets to ensure data accuracy and consistency for analysis.
- Applied basic machine learning algorithms and statistical techniques to extract meaningful insights from structured data. Collaborated with team members to document findings and present data-driven insights in clear and concise reports.
- Used Python libraries such as Pandas, NumPy, and Matplotlib for data analysis and visualization tasks. Supported the development of predictive models under supervision, improving decision-making processes.

PROJECTS

Beauty Bliss Ecommerce Website

- Developed a responsive e-commerce website for a makeup brand using HTML, CSS, and JavaScript. The platform allows users to browse beauty products, search items, and manage a shopping cart for a smooth shopping experience

Smart Hospital Appointment Resource Management System- DSA

- Designed a hospital management system using Data Structures and Algorithms to efficiently manage patient records and doctor appointments. The system improves scheduling, reduces waiting time, and organizes hospital data systematically

Secure Phone Tracker-Information Security

- Built a smartphone tracking system focused on information security concepts to help locate and monitor lost or stolen devices. The system uses secure tracking mechanisms to protect user data and improve device recovery

EDUCATION

Fazaia Bilquis College Rawalpindi Affiliated with Air University Islamabad

Sep. 2024 – Aug 2028

Bachelor in Computer Science - 4th Semester

Present

- **Coursework:** Data Structures and Algorithms, Object Oriented Programming, Digital Logic Design, Digital Image Processing, Java, Databases, Software Engineering, Probability and statistics, Calculus and Analytical Geometry

SKILLS

Languages : Python, JavaScript (React.js), HTML/CSS, , Express.js, Node.js, Mongo.db, mySQL, Java)

Tools : Figma, GitHub, php myAdmin, VS Code
